

Instructions

Thank you for your purchase of a scoreboard from PC Scoreboards. Enclosed please find your USB license key which will provide complete portability of your scoreboard license.

Before first use:

The enclosed USB license key needs to be activated before use. Follow the steps below to activate:

1. Go to www.pcscoreboards.com/UpdateUsbKey
2. Download and install the USB License Key Updater.
3. Run the USB License Key Updater program.
 - The program will ask you to plug in your USB license key.
4. Plug your USB license key into the computer running the USB License Key Updater program.
 - The program will tell you that your USB license key is ready to be activated.
5. Click the "Activate USB License Key" button.
6. Enter the email address that was used to purchase the scoreboard.
7. Click the "Activate" button.
 - If you entered the correct email address, you will see a message that your USB license key was successfully activated; click "OK".
8. You can now use the program you purchased.

Directions for use:

1. Download the purchased scoreboard from www.pcscoreboards.com to any computer you will use the scoreboard on.
2. Install the purchased scoreboard on each computer.
3. Plug the USB license key into any available USB port on the computer that will be running the scoreboard.
4. Start the scoreboard.

Note: The USB license key must remain plugged in the entire time the scoreboard is being used. Unplugging the USB license key while the scoreboard is running will result in the unlicensed notice appearing every few minutes. Re-inserting the USB license key will immediately remove the unlicensed notice and prevent it from displaying again.

Thanks again for choosing PC Scoreboards.
